WHO WE ARE

Your technical partner, **not just a vendor**

Founded in 2021, Tech Laurel delivers production-ready software for clients across the US, UK, EU, GCC, and Asia-Pacific. Every product is built with rigorous architecture, real QA, and long-term scalability in mind.

Our 40+ engineers, designers, and strategists work as an extension of your team, whether you are launching a first MVP or modernizing a legacy system.

OUR STRENGTHS

01 Speed without compromise

MVPs typically in 8–14 weeks, full platforms in 4–8 months, with no shortcuts on architecture or quality.

02 On time. Every time.

Fortnightly demos, milestone billing, and transparent project tracking.

03 Security by default

HIPAA, PCI-DSS, and SOC2-aware architectures. Your IP transfers fully on completion, and NDAs are signed before discovery.

04 A real team, not freelancers

A dedicated project manager, lead architect, engineers, and QA on every engagement.

05 Outcome-driven, not hour-driven

80% of our clients continue working with us after their first project.
